

JUNG-JUN KIM

145 Anam-ro, Seongbuk-gu, Seoul, Korea, 02841
+82-10-2176-8110 ◇ jj_kim@korea.ac.kr

EDUCATION

Korea University, South Korea

M.S., Department of Brain and Cognitive Engineering

Advisor: Dr. Seong-Whan Lee

Thesis : Multimodal Explanations in Visual Question Answering

August 2018 - Present

GPA 4.0/4.5

Incheon National University, South Korea

B.E., Department of Embedded System Engineering

Advisor: Dr. Kwang-Il Hwang

Thesis : Condensation Prediction via K-means Clustering

March 2012 - August 2018

GPA 3.3/4.5

RESEARCH INTERESTS

Interaction between vision and language

Interpretability of deep learning

RESEARCH PROJECTS

Explainable Artificial Intelligence Center (XAI Center)

Feb 2019 - July 2020

Task: Explainable interface to provide reasons for decision making.

RESEARCH AND INDUSTRY POSITIONS

Research Assistant

Sep 2018 - present

Pattern Recognition Machine Learning Lab, Korea University.

Research Assistant

Mar 2017 - Mar 2018

Embedded Network and System Architecture Lab, Incheon National University.

TECHNICAL SKILLS

Programming Languages:

Python, C/C++, C#, CUDA

Deep Learning Frameworks:

Caffe, Caffe2, PyTorch, TensorFlow, Chainer
